

ANNOUNCING... the **FIRST AND ONLY** air and surface purification technology scientifically proven to have a **99.98%** surface kill rate on live **SARS-CoV-2** (novel coronavirus). (see attached)

Our Air & Surface Pro with proprietary ActivePure® NASA Certified Space Technology is the ultimate frontline defense, a game changer in the battle against SARS-CoV-2 (novel coronavirus) and other contaminants... the most powerful and proven air and surface purification technology ever discovered!

Viruses successfully tested and destroyed by ActivePure Technology include SARS-Cov-2 (novel coronavirus), Swine Flu (H1N1), Avian Bird Flu (H5N8), Hepatitis A (HAV), MS2 Bacteriophage, and Murine Norovirus, and other contaminants, including Staphylococcus, Epidermidis, MRSA, E Coli, C Diff, Aspergillus Niger Fungal (black mold), Legionella Pneumophila, and Volatile Organic Compounds.

ActivePure travels 600 to 1,000 Miles Per Hour! Within minutes, the air and every surface in your home or business – counters, desks, computer, furniture, carpet, toys, clothes, even those hard-to-reach places – are disinfected and purified!

Air & Surface Pro protects surfaces and air, 24/7, using no ozone, and covers up to 3,000 square feet without the need for costly filter replacements, resulting in greater peace of mind, protection, and value.

How it works: ActivePure Technology pulls free oxygen and water molecules in the air through ActivePure's patented honeycomb matrix, located inside the purification device. The technology creates powerful oxidizers, known as ActivePure Molecules, or hydroxyls, that are released back into the air space where they seek and destroy RNA and DNA viruses and pathogens on surfaces and in the air, regardless of their size, and do so safely with people and pets in the room.

Used in the Space Station, the Pentagon after 9/11, Ground Zero Museum, Liberty Bell Museum... Tested in hospitals, schools, hotels, professional sports locker rooms... Used worldwide in homes, businesses, doctors' offices, schools, restaurants, hotels, care facilities, salons, cars... ActivePure has helped millions...It can help you.
